

NOTICE

TO ALL EMPLOYEES

Steps are now being taken to reduce the number of personnel on the payroll. We intend to reduce the number of older employees and retain the younger, lower-paid employees. The program to phase out older personnel through early retirement will be known as RAPE (Retire Aged People Early).

Employees who are RAPEd may look for jobs outside the company. If they are being RAPEd, they may also request review of their employment records before actual retirement. This program is called SCREW (Survey of Capabilities of Retired-Early Workers).

All employees who have been RAPEd and SCREWed may file and appeal to upper management. This program will be called the SHAFT (Study by Higher Authority Following Termination). Under the terms of the new policy, employees may be RAPEd once, SCREWed twice, and SHAFTed as many times as the company deems appropriate.

If an employee follows the above procedures they will be entitled to get HERPES (Half Earnings for Retirement Personnel of Early Severance) or AIDS (Assistance Income for Deleted Staffers). An employee who receives HERPES or AIDS will no longer be RAPEd or SCREWed. However, an employee who receives HERPES and AIDS will be POUNDED (Prosecuted for Overpayments Usurped from Normally Deserving Employees and Dependents).

The company wishes to assure the Younger employees who remain, that it will continue its policy to ensure that employees are well-trained through our SHIT (Speciality High-Intensity Training) Program. The company takes pride in the amount of SHIT our employees receive. We have given our employees more SHIT than any other company in the world.

The Management.
